## MEDPLAST EXPANDS AND UPGRADES WESTFIELD, PA , CLEAN ROOM FACILITY

(Tempe AZ—June 3, 2009) MedPlast recently expanded its 70,000 square foot Westfield, PA facility. The upgraded facility now includes a 45,000 square foot clean room, which houses class 100,000 and class 10,000 molding and assembly operations. Over 60% of the facility's square footage is now dedicated to certified clean room production.

MedPlast's Westfield facility offers contract thermoplastic and elastomer manufacturing for customers in the healthcare and medical device industry. The company specializes in medical and surgical disposables such as syringes and other components used in fluid and IV delivery systems such as drip chambers, Y-sites, and male/female luer adaptors.

"Along with our engineering expertise and technical resources, MedPlast has extensive experience in thermoplastic and elastomer molding and assembly, enabling us offer custom designed products to our OEM partners. The expansion of our Pennsylvania facility will provide better service in a controlled environment for our customers that demand highly specialized products manufactured to exacting standards," said Rich Aiello, General Manager of MedPlast Westfield.
